

Please accept our sincere thanks for your recent donation. The financial support is definitely what enables us to keep helping those animals in need; but the fact that you care enough about our work to give freely of your finances means the world to us. By this unselfish act, you have demonstrated that our Community supports us.

We love helping the animals - be it adopting one to a good new home after it was surrendered to us, or slowly nursing an abused/neglected animal back to health. We know we've helped a precious animal - your support allows us do just that - *THANK YOU !!!*
